**FOR IMMEDIATE RELEASE**

**Autumn rose planting made easy**

The Mattocks autumn naturepot rose range is especially designed for fuss-free easy planting, by using a combination of biodegradable and recyclable packaging.

There is no need to remove the pot when planting as each rose is presented in a naturepot, which is made from rice husks, which on planting decomposes into a natural soil conditioner. Both bush and climbing roses are in the Mattocks naturepot range, 60 varieties are available.

A colourful care-wrap aids selection by showing a picture of the rose in full bloom, along with planting instructions and simple aftercare. The care wrap can be recycled and includes a 'press-out' label for the freshly planted rose.

Mattocks Naturepot roses will be available from autumn 2008 exclusively at Notcutts and Barton Grange Garden Centres for details of your nearest centre call 01728 745158. For more information on roses in the Mattocks range go to [www.mattocks.co.uk](http://www.mattocks.co.uk)
